Ruc' June 3'- He Any June Rd On Engelman Industanding from Dr King of Italinis that you " are prepared to exchange your Western is plants for Eastern Species, and being desirms of completing my collection of american plants, I take the liberty of roposing an interchange of specimens I have collected most of the plants enume. rated by Darlington in his Flora Cestrica and I shall have much pleasure in sending you any of these and such others MISSOURI BOTANICAL copyright reserved GARDEN

as I can procure pre you. In return I shall reglad to have any not mentioned in the Hera Cestrica, and especially such as are peculiar to the Western States. Ferry will be particularly acceptable. Beling that it would be desirable for with houting to exchange two specimens of each species I have enclosed two except when ranty or Ther cause has presented, in the present hacket. Or King will with to let you know to whose care it is directed. With much respect Mo. Cany Cea.

Phil. March 10 1024.

of species in your list which I can send you, & thus which I can probably obtain from correspondents. I hope yet to aceine the parcel & it will give me pleasure to make any return in my power. With risket M. Carey dear. Phil, Aug 26. 1844. I.S. Sme mistake must have occurred un the Catels of the Equisità, as I doubt that I can have taken opening of I. asvense for E. humale - the localities, halits re an distinctly marked. \_ We have but two species of Curcuta, the must endent difference is betien the sepile & pedunculated unitels. I mic en dearme sto send you well marked specimens of both. In unitig please direct Can of Meps Vea & Blanchard, Fouth & Chustinh
